ELP-24V2740Wh-6T
NATO LiFePO4 Rechargeable Battery

**Description and Features**
- NATO 6T LiFePO4 battery for armored and military vehicles and heavy duty applications
- 2.7 times more energy than in advanced Lead Acid batteries
- 3500 charging cycles and 10 year operational life
- Drop-in replacement of Lead-Acid batteries
- Smart battery with self-balancing and self-charging capability
- Serial and parallel interconnectivity with additional batteries supporting group operation
- Unique high current charge regulator that supports high power alternator feed and surges.

**Charge Method (CCCV)**
- Embedded charge controller
- Charge source: 30VDC power supply or 28V alternator
- Charging Voltage: 28.8VDC
- Recommended Charging current: 55A
- Fast Charging: 110A
- High current charge regulator that supports high power alternator feed, surges and differential battery SOC

**BMS**
- Protection: Under/over voltage; over-current; Short circuit; Reverse polarity; High/low temperature; Balance
- Communication: standard and configurable CANBus 2.0B; LED Fuel Gauge

**Quality System**
- ISO-9001:2008; AS-9100

**Applicable Standards**
- UN-38.3
- UL- 1642 / IEC 61233 (for cells)

**MSDS and Disposal**
- Check with manufacturer

**Mechanical**
- Dimensions (L;W;H): 267mm;285mm;230mm
- Weight: 26 kg
- Energy Density: 105 Wh/kg; 157 Wh/L
- Battery Housing: Reinforced polymer
- Ingress Protection: IP67
- Color: Coyote Brown

**Environmental**
- Charge temp. -40°C to 55°C (internal heater)
- Discharge temp. -40°C to 71°C (internal heater)
- Storage temp. -40°C to 71°C (accelerated aging at temperatures > 30°C)
- Transportation: Class 9
